

TEBALLO CANDICE MOKOENA

ASPIRING DATA ANALYST

Johannesburg, Gauteng | (+27) 76 465 0778 | candiceteballo@gmail.com |
Portfolio: <https://candicempportfolio.netlify.app/>

PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in Power BI, SQL, Python, and Excel, with a sharp eye for uncovering trends and driving data-backed decisions. Experienced in data cleaning, visualization, and storytelling to transform raw data into actionable insights.

EXPERIENCE

Project Coordinator | Social Housing and Regulatory Authority

March 2024 – Present

- Coordinate multiple projects by managing schedules, tracking progress, and ensuring alignment with governance and audit standards.
- Collaborate with project managers to facilitate stakeholder communication and maintain comprehensive project artefacts such as agendas, issue logs, and meeting minutes.
- Manage data collection and reporting processes for multiple projects to ensure accurate decision-making.
- Utilize Agile methodologies to streamline project execution and ensure timely delivery of objectives.

EDUCATION

Google Advanced Data Analytics Professional Certificate | Coursera

February 2025 – February 2025

- Statistical Methods & Hypothesis Testing: Applying probability, distributions, A/B testing, and regression analysis.
- Big Data & SQL: Handling large datasets efficiently using SQL and Google BigQuery.

- Machine Learning Basics: Understanding supervised and unsupervised learning, model evaluation, and predictive analytics.
- Python: Using libraries like Pandas, NumPy, and Matplotlib for analysis.

Google Data Analytics Professional Certificate | Coursera

January 2025 – January 2025

- Data Cleaning: Cleaning and organizing raw data for accurate analysis.
- Data Visualization: Creating charts and dashboards using Tableau and Power BI.
- SQL Queries: Extracting and managing data from databases efficiently.
- Data Ethics: Understanding privacy and ethical principles in analytics.

Project Management Short Course | Udemy

August 2024 – August 2024

- Explored project management methodologies, including Agile and Waterfall frameworks.
- Gained proficiency in tools like Excel and MS Project for project tracking and Scrum for team collaboration.
- Learned Agile concepts such as User Stories, EPICs, and Minimum Viable Products (MVPs).

BSc in Construction Studies | University of Witwatersrand

February 2020 – November 2023

PROJECTS

Sales Data Analysis

- Analyzed sales trends to identify revenue patterns and customer purchasing behavior.
- Identified key purchasing trends that informed product strategy.

Cybersecurity Data Analysis

- Examined cybersecurity threats and attack patterns using real-world datasets.
- Identified potential vulnerabilities and attack trends, contributing to improved understanding of cybersecurity risks and helping to strengthen data security practices.

-

Financial Statement Analysis

- Analyzed personal finance trends by categorizing transactions and identifying spending patterns.
- Used Excel Power Query, SQL, and Power BI to clean, transform, and visualize data.
- Streamlined financial data reporting, improving budgeting processes.

Web Scraping with Python

- Extracted and processed structured data from online sources using Python (BeautifulSoup) and Panda.

SKILLS

Software skills:

- Power BI.
- Excel and SQL.
- Python.

Professional skills:

- Exploratory Data Analysis (EDA).
- Data Cleaning and Visualization.
- Statistical Analysis.
- Project Management.
- Report Writing

Soft skills:

- Problem-Solving.
- Collaboration.
- Communication.
- Attention to Detail.
